B. Procedure

1. Such inspection shall include a check of:
   a. All emergency lights and siren for proper functioning.
   b. Fuel and oil levels.
   c. Safety items such as Red Cross first aid kit, at least one dozen flares, blanket (emergency), and fire extinguisher. These items shall be included in every patrol car. Agents are responsible for replenishing supplies as needed. The Patrol Support Coordinator shall be notified of missing items, which cannot be replaced by agents.
   d. Tire inflation and spare tire condition.
   e. Proper functioning of headlights and taillights.
   f. Auto body for damage.

2. Any deficiencies shall be corrected as soon as possible. If a deficiency is found that renders the vehicle unsafe for operation, it shall be deadlined until that deficiency is corrected.

C. Rule

1. Agents shall inspect the patrol vehicle for serviceability prior to operating the vehicle.
