

Appendix C: Wireless LAN SCANS

The map in Figure C-1 identifies the route driven by the test team when collecting wireless LAN data.

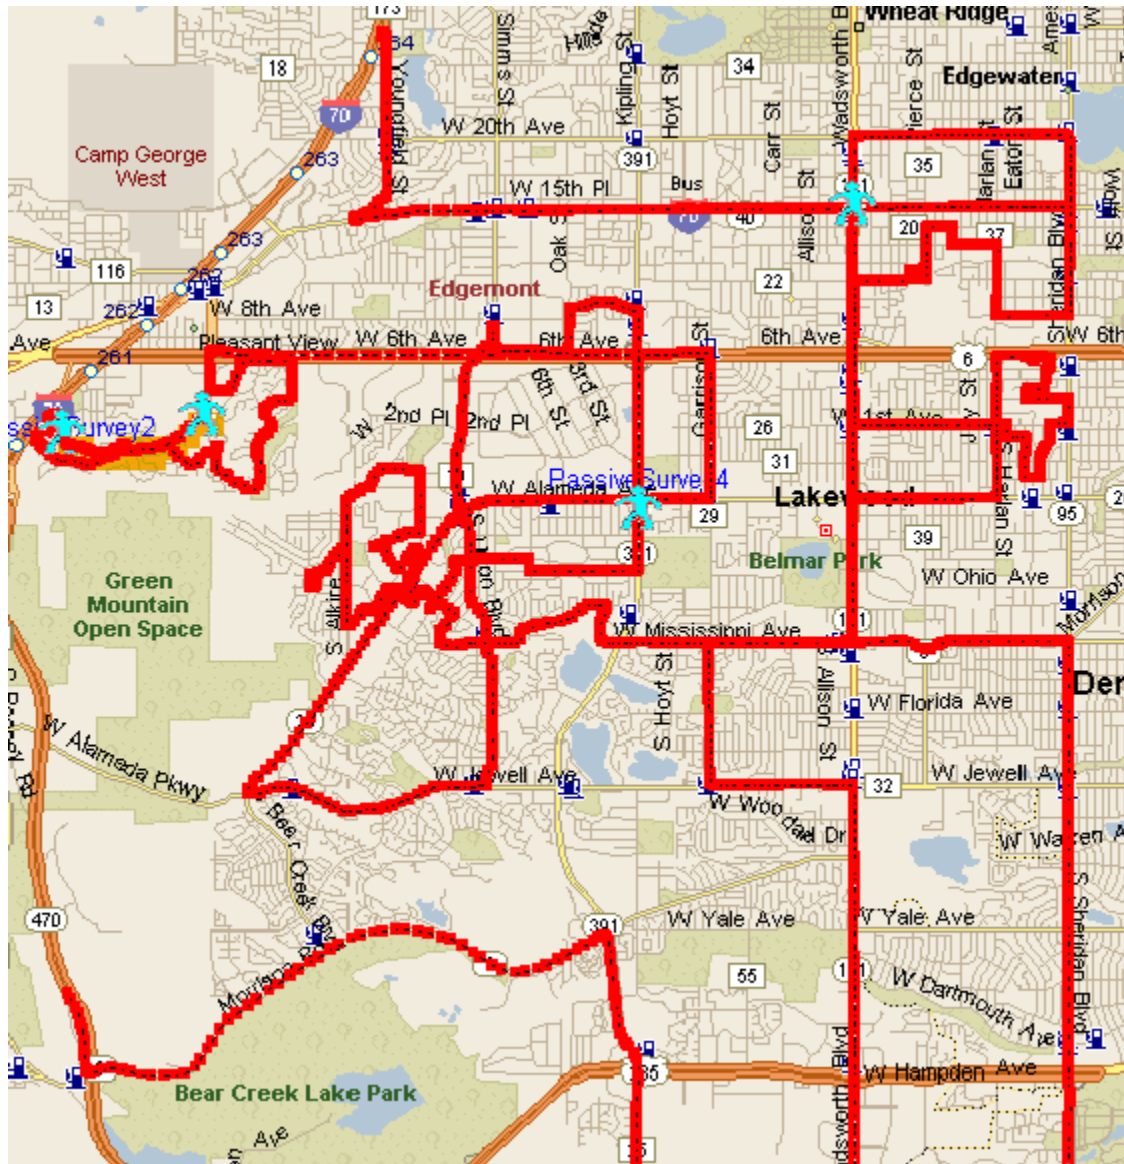

Figure C-1. Route Driven by the Test Team.

The map shown in Figure C-2 indicates the signal strengths of access points found throughout the test area along the route driven by the test team.

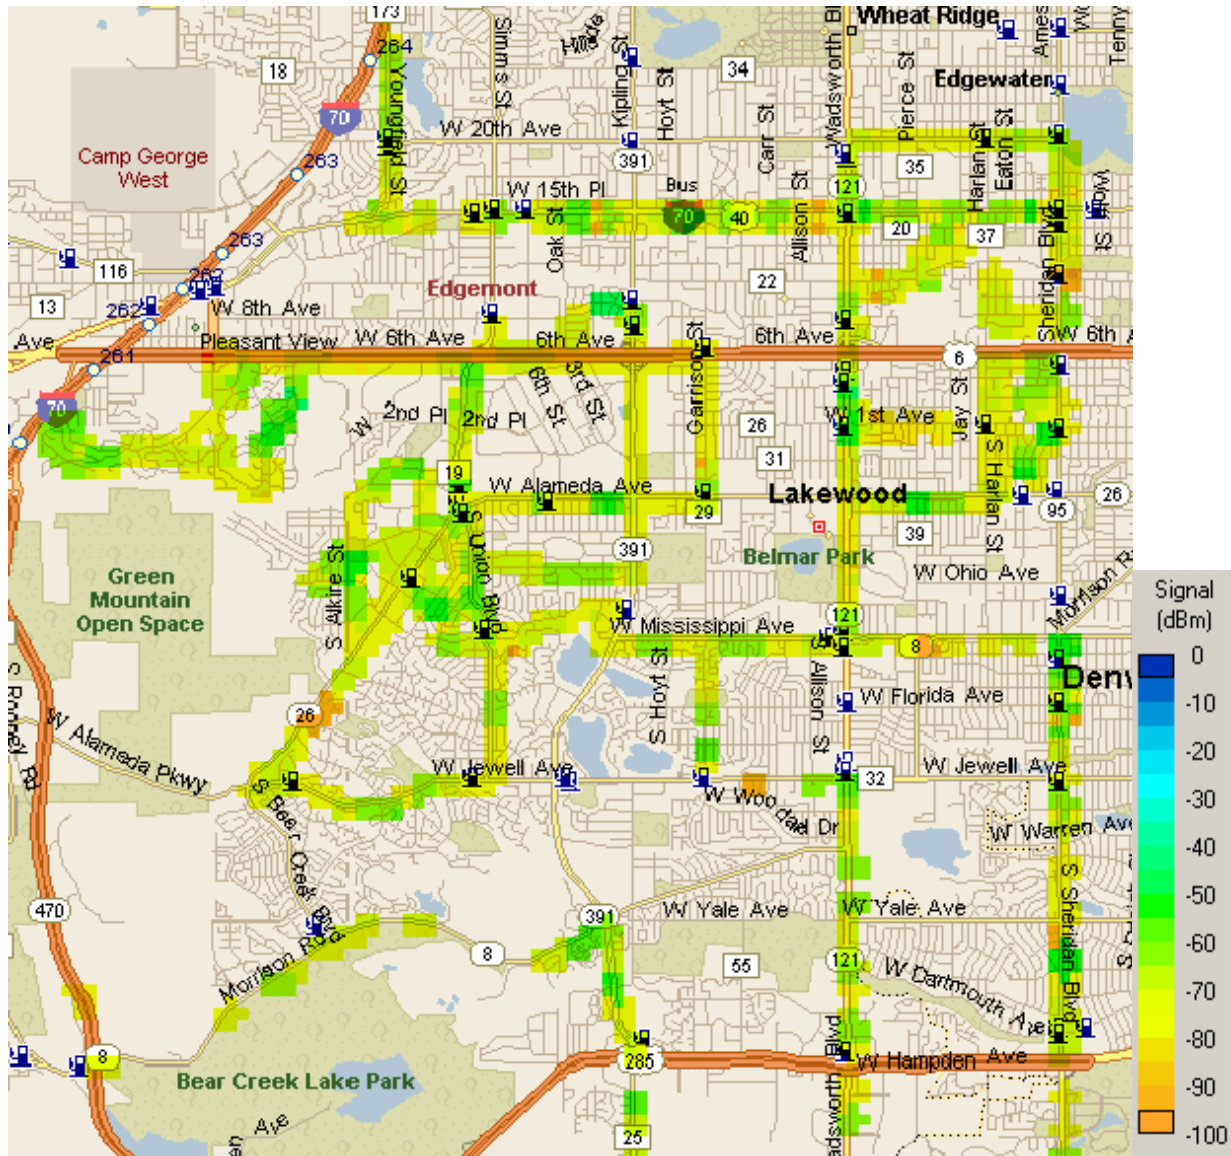

Figure C-2. Signal Strengths of Existing Access Points along the Test Route.

The map shown in Figure C-3 indicates the average noise levels found throughout the test area along the route driven by the test team.

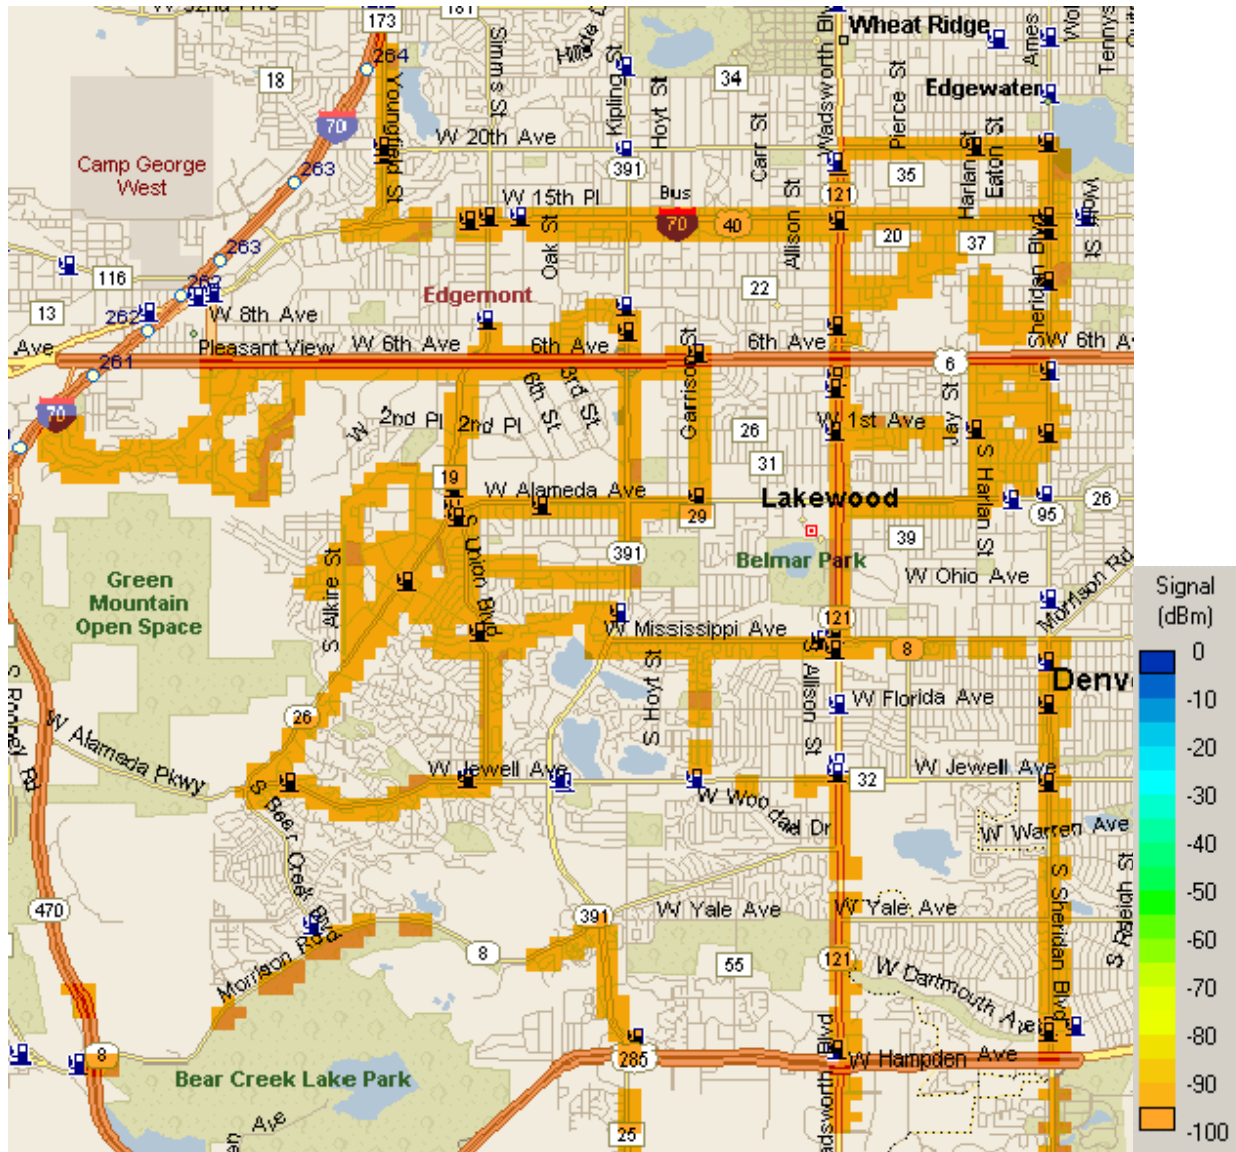

Figure C-3. Average Noise along the Test Route.
