Can Your Business Afford the Cost of Doing Nothing?

BEEP Energy Education Coaches

contracted by the City of Lakewood are conducting FREE Building Checkups for qualified commercial building owners, property managers and tenants that will provide useful actionable ideas for your building and suggest profitable performance upgrades.

Hurry... only 180 of the free checkups are available, so please act now.

Learn more about **BEEP** by visiting www.Lakewood.org/green and get registered for your initial consultation

Or contact Ron Vasquez at 303.264.9684 / ColoradoLiteracy.org

BEEP is a major public outreach initiative of the Greening Lakewood Business Partnership, managed by The Learning Source and comprised of a unique alliance of organizations in Lakewood including the Alameda Gateway Community Association, Red Rocks Community College, Alameda Corridor Business Improvement District and other civic and business organizations. This alliance is dedicated to helping commercial building owners, property managers and tenants improve commercial building performance and create a strong economic base for our business environment.

Your business could be losing thousands of dollars each year to energy inefficiency. By participating in **BEEP** you can put your business on track to reduced energy bills, increased comfort, and even a competitive advantage.

The price of energy is expected to rise significantly in the coming years. Follow the path to energy efficiency that many of the Fortune 500 companies have taken to become more financially sound.

Here are the Free BEEP Services that You Will Receive

Energy Evaluations - Energy Coaches analyze and baseline your building's energy use, evaluate energy bills, inform you of the impact of occupant behavior on energy costs and the cost of doing nothing. These evaluators are trained by the experts at Red Rocks Community College and The Learning Source. The value of this commercial energy evaluation ranges from \$250-\$750, depending upon the size and complexity of the building. You will also receive \$250 worth of energy saving items and/or services to start your energy saving measures.

BENCHMARK Report -

Your BEEP Energy Coach will present a detailed report regarding building energy performance and explain some important points on your bills to help you better manage your energy usage, and introduce you to the relevance of an Energy Star rating of your building.

Get Well Plan - Very simply, this is a report with little-or-no-cost recommendations that offer an immediate reduction in energy costs. Additionally, the report will make recommendations on occupant behavior that will reduce energy costs. Lastly, the report will also make recommendations for longer term return on investments.

Learn How to Grow Your Own "Green Team" - We will introduce you to the value of a "Green Team" in your workplace.
