

Top Level Summary: Fiber permitting and construction pace are on track for our anticipated First Customer Served (FCS) milestone in late Summer 2024. Construction pace is anticipated to increase month-over-month for the remainder of the year as we target additional neighborhoods within Lakewood, CO.

Quarterly Newsletter: Q1'24 Edition!

Greetings from the local GFiber Team!

In an effort to keep all informed, we are sharing brief quarterly updates of our progress to bring fast, affordable, and reliable internet to the community, and where we are in our journey together.

Detailed Design & Permitting

Approved permit runway and permit backlog in review are being maintained at a healthy level given current construction crew resources and consumption rates. As we progress through Spring towards Summer, we anticipate both crew count and consumption rate to increase in anticipation of reaching more customers within the community!

Construction

We are excited to share that construction efforts are on pace to meet our First Customer Served (FCS) goal by the end of Summer 2024. Crews are currently performing construction across four permit areas between 6th & 13th Ave and Quail and N. Harlan St. We anticipate construction to start South of 6th Ave in the coming months in collaboration with Lakewood Public Works.
