

Nighttime or Sunday Work Ordinance Exemption Request

Construction activity on Sunday and use of construction and other power equipment at night is generally prohibited in Lakewood. If it is necessary to consider working on Sunday or between 9:00 p.m. and 7:00 a.m., an exemption must first be obtained. Requests for an exemption may be conveyed via any one of the following:

(a) E-mail to: engineering@lakewood.org

(b) Letter to: City Engineer
480 S. Allison Parkway
Lakewood CO 80226

(c) Fax to: 303-987-7910

The information provided must include:

- The anticipated dates for night or Sunday work.
- The reasons the work must be done at night or on Sunday.
- Hours of night or Sunday work.
- The type of work planned for nights or Sundays.
- The type of equipment that will be used.
- The specific location(s) of night or Sunday work. Include staging area location if it will not be at the same location. Include haul routes if materials will be brought in or out during the night or Sunday work hours.
- Name and contact information for 24-hour contact person who will be on the job site during nighttime and Sunday work hours.
- Name and e-mail contact information for person or entity requesting exemption.
- Name and e-mail contact information for contractor or sub-contractor if request is made by entity other than contractor doing the work.

Notification of adjacent residential units, and potentially some businesses, will be required as a condition of the exemption, if it is granted. The notice must be hand-delivered a minimum of three days prior to the work occurring. Your request must indicate who will be delivering this notice; whether it will be you or a sub-contractor. A draft of the notice may accompany the request; if it is not with the request, it must be delivered to the City before delivery to the neighborhood.

Submit your request at least two weeks prior to the proposed night work start date. If the exemption request is approved, you will receive a letter confirming the exemption and imposing any necessary conditions.
